**FIIT**

**FUTURE**

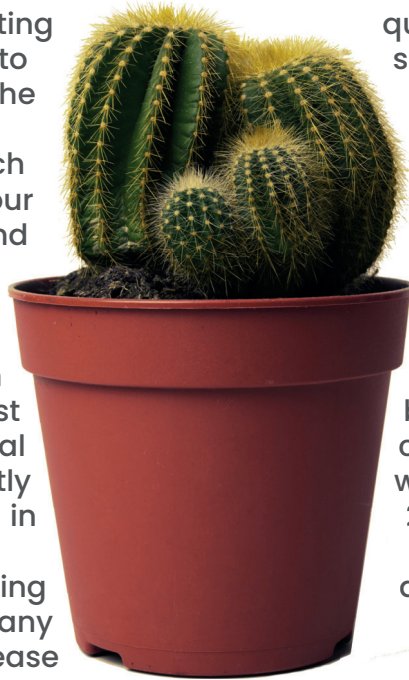

**INNOVATION**

**TRUST**

Our family company is proud to be the leading innovator in the synthetic pottery market.

Our company has adopted the principle of making production focused on future, innovation and trust in line with the wishes of our customers. It continues to serve you appropriately by integrating technology. We continue to shape our business life with the advantages of growing in the plastics industry.

Our flower pot adventure, which more professional with our constantly renews itself and work hard to satisfy our product portfolio which is brand, which had been found continues as BOLLU PLASTIC on forward. We strive to do our best completely beyond commercial arrived today, we are constantly with 10 injection machines in

we started in 1985, has become company policy, which is gives importance to R & D. We customers with our new increasing every day. Our as AKBAHAR PLASTIC , the path that we are moving by keeping our product quality concerns. At the point where we working to strengthen our track 2000m2 closed area.

With our trade volume increasing Middle East, the Balkans and many rapidly. The continuity and increase reflection of the service, quality and are working for a better world and a green nature. We combine art with plastic.

day by day, our exports to the European countries continue of our exports are the prices we offer to our customers. We

Bollu Plastik, which we started as a raw material producer since 1985, turned our industrial adventure into a production-oriented field in the 2000s..

## RESPECT NATURE!

We produce our products with the latest technology machines with less energy.

*For a more beautiful world with flowers...*

# SUSTAINABLE MANUFACTURING

## WE LOVE OUR WORLD

We are manufacturing over 25.000.000 pcs flower pot during the year and recycling 1.000.000 kg plastic for a better world.

## WE'RE MORE THAN BIOPLASTICS

We help people meet their sustainability goals! Whether that means making organic waste diversion possible for an organization, helping citizens work with their city's yard waste guidelines and plastic bag usage, or being a part of someone's home composting goals. Our products are certified by the BPI to do what we say they will do – return to nature in a composting environment. So you can trust that your use of BOLLU® products will help make your world a better place.

## SUPPORTING ZERO-WASTE AND SUSTAINABILITY

Zero-Waste is a Journey...Not a Destination We know whether you're working towards zero-waste, LEED certification, or simply trying to focus on sustainability, there will be challenges. Our team of dedicated experts is here to support you on your journey and help ensure your success. We can assist in planning and development, signage and marketing, custom products, and more!

All BOLLU® products are subject to quality control checks prior to release for sale ensuring our customers receive the highest quality products.
